

I was recently mailed a flyer requesting that I send in a comment as to why I think KLOVE should stay on the air. I believe that KLOVE sends out a very positive message to a world that is in need. The radio station also brings in christian music, as well as, christian beliefs to certain people that are not able to attend church for various reasons. You see my mother was one of those recipients. She had Lou Gehrig's disease and was completely bedridden before her death late last year. She was not able to attend church but was able to here messages and music about Jesus from here own home. Replacing KLOVE with another station, I believe, would be detrimental to the community. Sometimes the only place someone hears about Jesus if from their radio. Most of the radio stations within the Memphis, TN area have filthy talk, loud music, and an underlying theme that is not what I want to teach my children. It is nice to know I can turn KLOVE on 94.7 and listen to christian music and this gives me a way to talk to my children about God/Jesus and christian beliefs. I ask that you consider keeping KLOVE on the air.
